**DETAILED ACTION**  
**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. Authorization of the examiner's amendment was given in a phone interview with the inventor's representative Mr. Philip Braginsky on February 28, 2005.

Independent claims 1 & 2, and dependent claims 3-16 have been amended, as indicated in the "Amendment" received on March 9, 2005.

***Allowable Subject Matter***

3. Claims 1-27 are allowed.

4. The following is an examiner's statement of reasons for allowance:

5. With respect to independent claims 1 and 2, prior art fails to disclose source for reducing drift of a hot spot by producing infrared (IR) light with an insulating housing, an electrical power supply; first and second resistance elements having first and second resistivities, a third resistance element having a third resistivity; the third resistance element disposed between the first and second resistance elements, with the resistivity of the third resistance element having a value greater than the resistivity of both the first and second resistance elements. Alternatively, the first and second resistance elements can have cross-sectional areas that are greater than that of the third resistance.

Art Unit: 2881

6. With respect to independent claim 17, prior art further fails to disclose a method of reducing drift of a hot spot in a radiating element of a source of IR illumination by applying constant polarity substantially constant direct current from a power supply and reversing polarity in less than 24 hours, by a square wave AC source, or a Class E amplifier at a constant power.

Claims 3-16 and 18-27 are allowed by virtue of their dependencies on independent claims 1, 2 and 17.

### ***Conclusion***

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments of Statement of Reasons for Allowance".
